Autumn 2024 meeting

The speaker for this meeting was Alex Summers. who gave a talk on “The Richtersveld – collecting in an arid biodiversity hotspot”. Alex was until recently the curator of the National Botanic Garden of Wales, now working in a National Trust garden. The NBGW has a large section devoted to plants from regions with a Mediterranean climate, including a collection of South African bulbs.

After the lunch-break we enjoyed two short talks on ***Eucomis*** by Tom Radford and on ***Massonia*** by Paul Cumbleton.

More details of our meetings are given on the meetings page.
